

PASSPORT TO EXCELLENCE

EDUCATION CONFERENCE 2012

Rosen Centre Hotel, Orlando, FL
March 23-24, 2012

EXCELLENCE IN THE HVAC-R BUSINESS: LEARN, NETWORK AND EXPERIENCE

LEARN - Keep your competitive edge by sharpening your skills, re-evaluating your business model, making the most of your resources. Knowledge is the key to remaining competitive. Experts in their field will discuss timely subjects to keep you in the "know."

PLUS receive up to 14 CILB-approved Continuing Education Credits (CEUs) for Florida Contractor license renewal requirements, including required Workers' Compensation, Safety, Business Practice, Rules & Laws and Advanced Code. *CILB Provider #0003199*

NETWORK - HVAC-R contractors, company owners, service and project managers, CFOs, building officials and any general contractor wanting to learn more about the HVAC-R industry will benefit from conference attendance. Benefit from the collective knowledge of your HVAC-R industry colleagues and the expert presenters through interactive courses, a variety of networking opportunities and informal socials.

EXPERIENCE - An on-site, boutique-style vendor display area features the hottest new products and services to boost your business. Conference attendees have exclusive access to these exhibitors leaving time for you to meet one-on-one and evaluate how they can improve the services and products you offer your customers, putting you above the competition.

14 FLORIDA CILB-APPROVED CONTINUING EDUCATION CREDITS

The Florida Refrigeration and Air Conditioning Contractors Association (FRACCA) is a trade association founded in 2001. FRACCA is comprised of HVAC-R professionals focused on the betterment of their industry. Members of FRACCA promote the interests of the Florida HVAC-R Contractor through legislative lobbying, targeted contractor education and enhanced public awareness. FRACCA is committed to those represented by the organization: the chapters, their members and the At-Large members.

WHO IS FRACCA?

FRACCA's strength is derived from the members: the association is comprised of more than 350 HVAC-R contractors and affiliated firms in eight chapters across the State of Florida. Members serve on advisory committees for the Florida Building Commission, on local and other licensing boards and therefore have a proactive influence on rules or codes before they are enacted.

Join FRACCA and take an active role in promoting the interests of the HVAC-R industry and contractor. For membership information contact FRACCA at 727-576-3225, mail@FRACCA.org or visit www.FRACCA.org.

CANCELLATION POLICY

All cancellations must be in writing no later than **March 15, 2012** and may be subject to a \$50 cancellation fee. Registration cancellations after this date are non-refundable. Hotel rooms cancelled after this date are subject to one night room charge plus taxes.

AWARDS LUNCHEON*

Sponsors: Johnstone Supply, The Ware Group and White-Rodgers

All attendees are invited to **FRACCA's Annual Awards Luncheon** Friday, March 23. Among honorees announced will be the recipient of the **2012 Leadership Award sponsored by Trane**. Awards Luncheon included in full 1-day (Friday) or 2-day registration packages.

GENERAL MEMBERSHIP LUNCHEON AND MEETING*

Keynote Speaker: Talbot Gee, HARDI Executive Vice President & COO
Sponsor: Carrier Enterprise, Florida Region

All attendees are invited to join us for **FRACCA's General Membership Luncheon & Meeting**, Saturday, March 24. Luncheon included in full 1-day (Saturday) or 2-day registration packages.

PRESIDENT'S HOSPITALITY RECEPTION*

Sponsor: Lennox Industries

Don't miss this excellent opportunity to network with your fellow HVAC-R contractors and catch-up with the day's activities at the **President's Hospitality Reception**. Catered hors d'oeuvres and cocktails are provided for attendees Friday, March 23 from 5:30 - 7:30 pm. (prior to **Monte Carlo Night** which is a separately ticketed event). President's Hospitality Reception included with all full 1-day (Friday) or 2-day registration packages.

MONTÉ CARLO NIGHT*

Casino-style gaming, dinner, and a great opportunity to mix and mingle! **Hosted by Orlando-area chapter, ACCA of Central Florida** on Friday, March 23; dinner at 6:30 pm, gaming from 7:00 pm - 10:00 pm. *This is a separately ticketed event benefitting the chapter.*

*Additional tickets for all events may be purchased separately.

Thank you to our
2012 Sponsors!

CONFERENCE COURSE SCHEDULE

FRIDAY, MARCH 23, 2012

TIME	EVENT
7:00 am	REGISTRATION / Continental Breakfast
7:00 am - 4:00 pm	Vendor Exhibits
8:00 am - 8:50 am	General Session Improving HVAC Designer/Contractor Coordination - FRACCA/ASHRAE Panel (1 hour credit)
9:15 am - 10:05 am	Concurrent Workshops Worker's Comp - Faces of Your Business (WC) (1 hour credit) Florida Laws and Rules (R&L) (1 hour credit)
10:35 am - 12:15 pm	Concurrent Workshops Improved Management Techniques (2 hours credit) Introduction to Direct Digital Controls for HVAC (2 hours credit)
12:00 pm - 1:15 pm	AWARDS LUNCHEON Sponsored by Johnstone Supply, The Ware Group & White Rodgers
1:45 pm - 3:00 pm	Concurrent Workshops The New Refrigerants (1.5 hours credit) Collections 101 (BP) (1.5 hours credit)
3:15 pm - 4:05 pm	Concurrent Workshops Advanced Energy/Mechanical Code (ADV) (1 hour credit) Thermal Imaging - Your Newest Diagnostic Tool (1 hour credit)
4:15 pm - 5:05 pm	Concurrent Workshops Electrical Safety Related Work Practices for the HVAC Contractor (SAF) (1 hour credit) Spending Does Not Equal Security (BP) (1 hour credit)
5:30 pm - 7:30 pm	President's Hospitality Reception Sponsored by Lennox Industries
6:30 pm - 7:00 pm	Monte Carlo Night Dinner Hosted by ACCA of Central Florida
7:00 pm - 10:00 pm	Monte Carlo Night Gaming Hosted by ACCA of Central Florida

SATURDAY, MARCH 24, 2012

TIME	EVENT
7:00 am	REGISTRATION / Continental Breakfast
7:00 am - 12:00 pm	Vendor Exhibits
8:00 am - 8:50 am	Concurrent Workshops Electrical Safety Related Work Practices for the HVAC Contractor (SAF) (1 hour credit) Energy Star - 2012 Update (1 hour credit)
9:20 am - 10:10 am	Concurrent Workshops Future Chiller Technologies for Residential & Commercial Markets (1 hour credit) Condensate Recovery - The Forgotten Resource (1 hour credit)
10:40 am - 11:30 am	Concurrent Workshops Davis-Bacon Act (BP) (1 hour credit) Small Duct / High Velocity Systems (1 hour credit)
11:45 am - 2:00 pm	MEMBERSHIP LUNCHEON & BOARD OF DIRECTORS INSTALLATION Sponsored by Carrier Enterprise, Florida Region Keynote Presentation: The Economy & Your Future as an HVAC Contractor (BP) (1.5 hours credit)
2:15 pm - 3:05 pm	Concurrent Workshops Advanced Energy/Mechanical Code (ADV) (1 hour credit) What Your Techs Should Know About Building Diagnostics (1 hour credit)
3:15 pm - 4:10 pm	Concurrent Workshops Worker's Compensation - What You Need to Know (WC) (1 hour credit) Florida Laws and Rules (R&L) (1 hour credit)

ADV - Advanced Code BP - Business Practice R&L - Rules & Laws SAF - Workplace Safety WC - Workers' Comp
Schedule, speakers and courses subject to change without notice. CILB CE Provider #0003199

DISTINGUISHED SPEAKERS

DAVID ADAMS - Introduction to Direct Digital Controls for HVAC

Adams has been active in the HVAC industry with a focus on controls for more than 25 years. He is currently a Territory Manager providing training a technical support to mechanical contractors for Engineered Controls Systems in Tampa.

ADAM BRITT - Worker's Comp - Faces of Your Business and Worker's Compensation - What You Need to Know

Britt is a Risk Consultant for Federated Insurance in Field Services covering Western Florida. His experience in Risk Management services include: safety program development, safety consultations and surveys focusing on workplace safety issues and workers' compensation exposures.

TED BROWN - Small Duct / High Velocity Systems

Brown brings with him more than 38 years of HVAC experience covering all facets of the industry from contracting and wholesale distribution to manufacturer representation and instructor for HVAC and refrigeration seminars. His focus for the last 13 years has been in small duct high velocity systems primarily in new product development, marketing and education and he is an industry leader in the SDHV market. Brown currently works with SpacePak, a division of Mestek Institute.

ROBERT COCHELL - Advanced Mechanical & Energy Code

Cochell is President of Gulf Coast Air Systems, Inc. of Tampa, a member of the State of Florida Energy TAC (Technical Advisory Committee) and a frequent speaker at FRACCA events. He is also on the Hillsborough County and City of Tampa Mechanical Board.

TRENTON COTNEY - Davis-Bacon Act

Cotney is a lawyer with Trenton Cotney, PA in Tampa handling all aspects of construction litigation and arbitration, including OSHA defense, lien law, bond law, and bid protests, as well as construction document review and drafting. Cotney is also a Florida Supreme Court Certified Circuit Court Mediator and Qualified Court-Appointed Arbitrator specializing in disputes involving construction law issues.

TOM DALTON - Florida Laws & Rules

Dalton has worked with the Altamonte Springs Building Department for more than 10 years. He is a licensed building contractor holds certificates as a building inspector, plans examiner, mechanical inspector, mechanical plans examiner and fire inspector. He is currently instructs courses for the Continuing Education Academy (CEA).

CHARLES ENO - Future Chiller Technologies for Residential and Commercial Markets

Eno has more than 25 years of HVAC industry experience in several sales and management positions in the HVAC industry with companies such as Carrier, Trane and currently Florida Air Conditioning Distributors (York). Eno's career focus has been the sales, engineering and development and service of mechanical systems including large tonnage centrifugal chillers and air handlers, DX rooftop and split systems, air treatment products and energy saving devices.

DENNIS HARRELSON - Improved Management Techniques

Harrelson is a partner in the Continuing Education Academy (CEA) and is a Chartered Financial Consultant (ChFC). He has more than 30 years experience working with distinguished businesses in Florida teaching them how to grow, maintain and exit their successful business.

PACIA HERNANDEZ - Condensate Recovery - The Forgotten Resource

Hernandez has a background in construction design and is currently a Civil Engineering PhD candidate with a focus on Water Resources. She is a LEED Green Associate and State of Florida Engineering Intern had taken part in projects and presentations on potable water conservation, water efficiency and rainwater harvesting cisterns.

DR. JOHN KIEFER - Energy Star - 2012 Update

Dr. Kiefer, Executive Vice President for E3 Building Sciences in Naples, has more than 10 years experience as a building scientist with extensive background in building design and diagnostics. He is a Florida HERS rater and BPI Analyst, is President of the Building Energy Assessment Professionals association.

AL LaPERA - Improving HVAC Designer / Contractor Coordination (Panel Moderator)

LaPera is Senior Project Manager at TLC Engineering for Architecture where he monitors department production, project budgets and schedules, serving as the focal point for communication between the TLC team and the architect's design team.

DAN MADIGAN - Spending Does Not Equal Security

Madigan has more than 20 years of business development and currently works with Akuwa Solutions Group, a provider of advanced infrastructure technology consulting located in Sarasota. He serves as a speaker with the FBI Cyber Crime Division raising awareness and providing Cyber Security advice to business executives.

RICK ROLAND - The New Refrigerants

Roland is the owner of Certified Refrigerant Services, Inc. of Punta Gorda. He has been in the refrigerant reclamation industry since its inception in 1995. With more than 40 years of hands-on experience, Roland is a well-known authority in the refrigerant management industry.

JOSEPH SHUCKYS - Thermal Imaging - Your Newest Diagnostic Tool

Shukys is a graduate Mechanical Engineer with more than 20 years experience in the HVAC-R industry as product manager providing technical expertise in-house to distributors and end users of commercial refrigeration and air conditioning equipment. Shukys works with a variety of manufacturers and a President/Owner of BTU Reps, a manufacturers' rep company.

RICK SIMS - What Your HVAC Techs Should Know About Building Diagnostics

Sims has been a Florida Mechanical Contractor since 1984 and is the owner of Johnson's AC in Naples. He has served as a SW Florida technical instructor for the SWF ASHRAE Student Chapter Tri-County Apprenticeship Program. Sims is a BPI accredited Building Envelope Specialist, Building Energy Analyst and Class 1 BERS Rater.

ANN STANTON - Advanced Mechanical & Energy Code

Stanton is a Building Code Analyst, supporting the Building Commission in the development of the Florida Building Code. She provides technical assistance to building departments, committees and design professionals on various code issues.

WES WHEELER - Electrical Safety Related Work Practices for the HVAC Contractor

Wheeler is Safety Director and Project Manager for Cogburn Brothers responsible for all up-to-date safety training for employees. In addition to being a Master Electrician, he has provided training as an Apprenticeship Instructor and Individual Journeyman Instructor in an extensive variety of courses for more than 27 years.

MARK SMITH - Collections 101

Smith is a construction lawyer with Carlton Fields in Tampa. His extensive trial and alternative dispute resolution experience is in the lien law, surety disputes, and litigation areas. He is always involved in commercial litigation, landlord-tenant law, creditor's rights and construction delay issues.

Keynote Presentation

Saturday, March 24, 2012

The Economy and Your Future As An HVAC Contractor

**Guest Speaker: Talbot Gee
HARDI Executive Vice President**

A riveting look at legislative and industry initiatives that will impact the business environment HVAC-R Contractors will face in the coming months and years. This course will also evaluate the current state of the economy from the perspective of impact on labor, material and fuel costs and project opportunities as well as discuss how and what effects costs and the current outlook for new projects assists the HVAC-R contractor in preparing cost estimates, service contracts, staffing, and overall short and long term company budgeting.

1.5 hours CEU (BP) - CILB Provider #0003199
Course #T0000009

Talbot Gee oversees HARDI's operations including government affairs market and industry trends and energy efficiency initiatives, all of which are focused on promoting and advancing the interests and value of HVACR wholesale distribution. Gee is also a columnist on legislative issues for the RSES Journal and HVACR Distribution Business, oversees HARDI's official blog, 'Wholesale Observations', and contributes to a host of other publications. He is a respected speaker and represents HARDI on the value of wholesale distribution, government affairs trends and updates, and emerging HVACR opportunities in the sustainable building arena.

Schedule, speakers, and courses subject to change without notice.

COURSE HIGHLIGHTS

BUSINESS EXCELLENCE

Collections 101 (BP) - 1.5 hour CEU - CILB provider #0003199 / Course #0010885

Contractors have a powerful tool in the Florida Lien Law, if used correctly, to collect monies due from customers. Other collection methods will be introduced to keep your losses under control.

Davis-Bacon Act - 1 hour CEU - CILB provider #0001201 / Course #0609452

Explore the effects of the federal 1931 Davis-Bacon Act's wage and benefit requirements on your business and responsibilities as a contractor employer. A must for contractors bidding on federally funded projects!

Improved Management Techniques - 2 hours CEU - CILB provider #0003208 / Course #0009697

(this course is also approved by the following boards: ECLB, Architects, Landscape Architects)

Learn professional techniques used to manage a successful construction company while achieving employee buy-in and company growth. Elevate your management style and discover planning techniques that will reduce expenses and increase margins.

Florida Laws and Rules (R&L) - 1 hour CEU - CILB provider #0003208 / Course #0010178

Explore the construction laws and rules of the State of Florida with specific reference to Statute 489 - Part 1. Learn where to access these rules and find helpful information to keep up-to-date and in compliance.

Spending Does Not Equal Security (BP) - 1 hour CEU - CILB provider #0003199 / Course #T000004

This workshop will provide contractors with basic IT security information that is not expensive to implement but protects their computer systems containing sensitive information on customers and other confidential company data.

Worker's Comp - Faces of Your Business (WC) - 1 hour CEU - CILB provider #004-0001107 / Course #0009168

This course provides information developing a comprehensive approach to proper hiring and screening practices to hire and retain quality employees. The program will explain why good hiring practices is a major contributor in minimizing workers compensation losses in the workplace.

Workers Compensation - What You Need to Know (WC) - 1 hour CEU - CILB provider #004-0001107 / Course #0001859

Learn ways in which you and your organization can insure Workers' Compensation compliance and reduce fraud. The course will review eligibility requirements, new enforcement provisions, penalties for failure to secure coverage and fraudulent practices.

TECHNICAL EXCELLENCE

Advanced Mechanical & Energy Code (ADV) - 1 hour CEU - CILB provider #0003199 / Course #0009078

Get the latest updates on the Florida Building mechanical and energy code requirements and the differences from the previous codes that may affect your projects.

Condensate Recovery - The Forgotten Resource - 1 hour CEU - CILB provider #0003199 / Course #T000006

An introduction for the HVAC contractor to the concept of recovering condensate from A/C systems for non-potable water uses as part of water conservation efforts and green construction.

Electrical Safety Related Work Practices for HVAC Contractors (SAF) - 1 hour CEU - CILB provider #0003199 / Course #0010184

OSHA has updated Rule 29 CFR 1910 Subpart S including Personal Protective Equipment Requirements. Learn from an Electrical Contractor's Safety Director how these changes impact the HVAC residential and commercial industry.

Energy Star - 2012 Update - 1 hour CEU - CILB provider #0003199 / Course #T000005

Becoming an EnergyStar Contractor is one way to set your company apart from the competition. Discover the basics of the EPA/DOE's EnergyStar Program and the benefits to your HVAC company and customers of attaining this designation.

Future Chiller Technologies for Residential and Commercial Markets

1 hour CEU - CILB provider #0003199 / Course #T000007

Learn about the future of the residential and commercial chiller industry. Participants will be presented with old and new chiller technology comparisons including energy savings, maintenance costs and overall building envelope efficiency.

Improving HVAC Designer / Contractor Coordination (Panel)

1 hour CEU - CILB provider #0003199 / Course #T000001

This workshop provides an opportunity for contractors to hear the HVAC design challenges from the design professional perspective and when and how to provide input on needed changes from the field. The course will be presented in a panel format allowing interaction and discussion between designer, contractor and manufacturer.

Introduction to Direct Digital Controls for HVAC - 2 hours CEU - CILB provider #0003199 / Course #0609483

This course provides a comprehensive introduction to the HVAC direct digital controls in commercial HVAC systems including function, purpose, most appropriate application and benefits.

Small Duct/High Velocity Systems - 1 hour CEU - CILB provider #0003199 / Course #0010266

The differences between conventional HVAC systems and small duct high velocity systems will be discussed including design and installation rules for ducting, plenum and return.

The New Refrigerants - 1.5 hours CEU - CILB provider #0003199 / Course #0010259

With the phase-out of R-22, have taken its place. Alternative refrigerants in retrofit and new construction will be discussed for air conditioning and refrigeration equipment along with their operating characteristics.

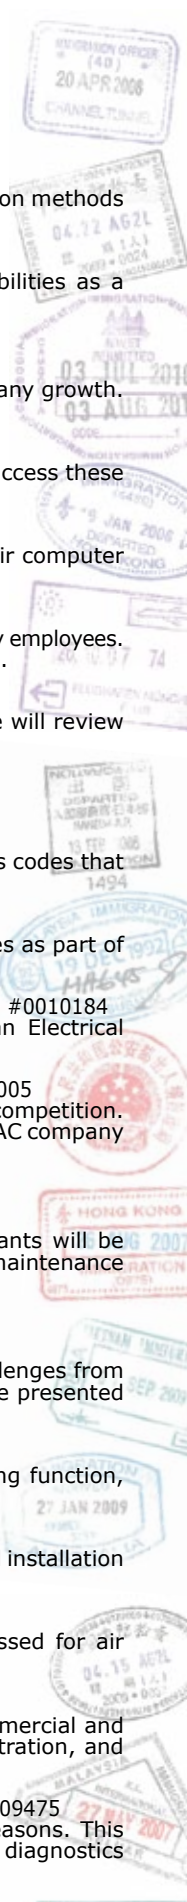

Thermal Imaging - Your Newest Diagnostic Tool - 1 hour CEU - CILB provider #0003199 / Course #0609476

This workshop will introduce contractors to the application of thermography for diagnosing air/water leakage from both commercial and residential HVAC systems. Presentation will include types of equipment available, use of equipment with hands-on demonstration, and interpretation of thermal images.

What Your HVAC Techs Should Know About Building Diagnostics - 1 hour CEU - CILB provider #0003199 / Course #0609475

HVAC contractors need to prepare Florida service managers and technicians for more than just the heating and cooling seasons. This workshop will provide information to HVAC contractors on training that should be given to their field employees on building diagnostics and the rationale behind providing this specific knowledge.

ADV - Advanced Code BP - Business Practice R&L - Rules & Laws Saf - Workplace Safety WC - Workers' Comp Schedule, speakers, and courses subject to change without notice.

MONTE CARLO NIGHT

Hosted by ACCA of Central Florida

Ticket includes: buffet dinner (optional), live DJ, dancing, play money and three hours of gambling

Don't miss this opportunity to network with Florida HVAC-R Contractors, win valuable door prizes & 50/50 raffle!

WHAT SOME OF LAST YEAR'S ATTENDEES SAID:

"What I liked most about the conference was the structure of the workshops, adherence to schedule, and overall professionalism of presenters."

"It was great! I got to interact with other companies from all over the state, took all of my CEU classes with good teachers in a fun place."

"This course is EXACTLY the information we need for the new code requirements and it was 'quick' and easy to follow for those hearing it for the first time."
