

Florida Refrigeration & Air Conditioning Contractor's Association

New EPA Required Lead Renovation, Repair & Painting Certification Class for Contractors

Friday, October 1, 2010

8:00 am - 5:00 pm

8 hour class ♦ \$295.00 per person

Location: Brown & Brown Insurance

2500 NW 79th Ave., Suite 101, Miami, FL 33122

(Located in front left of the building, Suite 101. Park in the back left of the building)

Effective October 1, 2010, the Environmental Protection Agency's (EPA) "**Lead: Renovation, Repair and Painting Rule**" (RRP) requires any Contractor to have a Lead Renovator's Certification who works on a house or a child occupied facility (school, day care facility, etc.) built before 1978 and disturbs 6 sq. ft. or more of lead-based painted surface. Contractors must complete, or be registered for, the Lead Renovation, Repair & Painting Certification class by September 30, 2010 to be in compliance with EPA regulations.

View the EPA's website (www.epa.gov/lead/pubs/sbcomplianceguide.pdf) and read the "**Small Entity Compliance Guide to Renovate Right.**" This gives you an overview of the rule and how it applies to you as a contractor.

Certification class is a "hands-on" skills course with mandatory proficiency assessments. Fees include all class materials, supplies, exam, certificate of completion and registration with the EPA.

Classes taught by META, an EPA approved provider

**Seats are Limited
to 25 attendees
Register Early!**

Registrant #1 Name: _____

Registrant #2 Name: _____

Company: _____
